Unit 1 - Self in Community		The general aim of this Unit is to allow learners to improve their self-reliance and confidence by developing their interpersonal skills as they work with others when carrying out a group project in the context of one or more communities, with non-directive supervision.	
Unit 2- Self Awareness		The general aim of this Unit is to allow candidates to build confidence and self-esteem and develop self-awareness, through self-evaluation of their own qualities, feelings, achievements, and areas of development, while undertaking a personal project with non-directive supervision.	
Unit 3- Self and work		The general aim of this Unit is to allow learners to improve their self-reliance and confidence by developing task management skills while carrying out a vocational project, with non-directive supervision.	
	How will the course be assessed?	How will the course be assessed?	How will the course be assessed?

		Internal assessment and logbook completion. Planning and participation in school Christmas fayre.	
Career Pathways			
The Personal Development Award seeks to develop learners' potential as employable, contributing members of society through the development of skills and knowledge. Learners will gain knowledge about themselves and their skills. Learners are given the opportunity to take ownership for particular activity or to take on a leading role within a wider activity. Thus learners may be able to develop lifelong, transferable skills which could serve them well in employment. This will complement and enhance learning in other areas giving learners the potential to achieve success in the new and challenging situations that the world of employment may present.
